

The chart displays sentiment data across seven days of the week, from Monday to Sunday. The x-axis represents the 'Time of the day' (0 to 24 hours), and the y-axis represents the count of sentiment instances (0 to 100). The legend indicates three sentiment categories: Neutral (blue), Negative (orange), and Positive (green). The chart shows a clear daily cycle with peaks in sentiment activity during the day and troughs at night. Negative sentiment is the most prevalent throughout the week, followed by Neutral, and then Positive sentiment.

Day	Time of Day	Neutral	Negative	Positive
Monday	0	10	10	5
