

The chart displays sentiment data over a seven-day period. The x-axis represents the 'Time of the day' from Monday to Sunday. The y-axis represents the volume of sentiment, with a scale from 0 to 100. The legend indicates three sentiment categories: Neutral (blue), Negative (orange), and Positive (green). The chart shows a consistent daily pattern where sentiment activity peaks during the day and is lowest at night. Negative sentiment is the most frequent, followed by Neutral, and then Positive sentiment. The overall volume of sentiment appears to be higher on weekends compared to weekdays.

Day	Time of Day	Neutral	Negative	Positive
