

The chart displays sentiment distribution over time for seven days of the week. The x-axis represents the time of day, and the y-axis represents the count of sentiment instances. The legend indicates three sentiment categories: Neutral (blue), Negative (orange), and Positive (green). The chart shows a clear daily cycle with peaks in sentiment activity during the day and troughs at night. Negative sentiment is the most prevalent throughout the day, while Positive sentiment is the least prevalent. Neutral sentiment is the most prevalent at night.
