

The chart displays sentiment trends for three categories: Neutral (blue line), Negative (orange line), and Positive (green line). The Y-axis represents the magnitude of sentiment, ranging from 0 to 10. The X-axis represents time, with major ticks every 10 units. The 'Negative' sentiment shows the highest peaks, reaching approximately 10. The 'Neutral' sentiment shows moderate peaks, reaching approximately 7. The 'Positive' sentiment remains the lowest, generally below 3. The chart includes a legend in the top right corner.
